JOHN FAWCETT FOUNDATION

GIVING GIFT OF SIGHT

DONOR REPORT – 2025 REPORT

On behalf of the entire team at the John Fawcett Foundation and those who have benefited from our eye health and sight recovery services, which have only been made possible by your kindness, generosity, and support. **THANK YOU!**

Please find below our full 2025 Donor Report. The funds you have contributed have made an enormous difference to so many lives and enabled the Bali JFF Team to achieve the following outcomes.

JFF OUTCOMES FOR 2025

ACTIVITY	TOTAL
Screening adults – checking eyesight and refraction	39,309
Screening school children – checking eyesight and refraction	4,157
Glasses distributed	26,091
Eye medicines distributed	16,639
Cataract surgeries (adults)	4,165
Cataract surgeries (children)	14
Other Eye surgeries (adults)	4
Prosthetic eyes	140

PROJECT ACHIEVEMENTS 1991-2025

ACTIVITY	TOTAL
Screening adults – checking eyesight and refraction	1,300,060
Screening school children – checking eyesight and refraction	98,612
Glasses distributed	661,612
Eye medicines distributed	669,654
Cataract surgeries (adults)	75,899
Cataract surgeries (children)	505
Other Eye surgeries (adults)	2,143
Prosthetic eyes	1,417

Summary of services provided in 2025

The JFF Programs are provided free of charge at the headquarters (HQ) in Sanur, throughout Bali in both local and remote villages, offshore on many of the islands in Indonesia, and in conjunction with external clinics to support outsourced services.

As a result of the funding you have generously provided, the JFF team travel for a large proportion of the year to provide the services where they are most needed to those who would not otherwise have access to eye health care and surgical services. When they are not travelling, they also provide services from the headquarters to ensure the program is available to all in need.

This year, the JFF Team delivered the following programs:

14	**Offshore Programs –** multi-day programs. Provided on islands throughout Indonesia to ensure as many people as possible from the surrounding districts and villages can travel and access services, including post-operative care for cataract surgeries.
102	**Bali Village Programs** – local and remote locations. In addition to the day programs for local villagers, the clinical team remain overnight or returns the following day to provide the post-operative care (**53** days). In total, providing **155** days of services to those in need throughout Bali.
90	**Headquarters Community Program** – based in Sunar for all services from screening to cataract surgeries.
2	**Outsourced Clinic Programs** – services provided throughout the year at Lombok and East Java.

Even with all these programs provided, millions of people throughout Indonesia remain in need of eye care services.

Service delivery by Program 2025

TOTAL CATARACT OPERATIONS	**4,183**
JFF HEADQUARTERS PROGRAM 2025	**89**

Total	**25,649**	**14,511**	**8,699**	**2,910**	**117**

THANK YOU

With your donation, JFF provides its services free of charge to the poor, regardless of gender, ethnicity, religion, or politics. Your support is incredibly valuable in helping our Foundation work towards its long-term goal of providing sight-restoration and blindness-prevention services to people from lower socio-economic groups in Indonesia.

We also thank PERDAMI Indonesia for providing ophthalmologists to work with our team and perform the surgeries, as well as the ONE SIGHT EssilorLuxottica Foundation for donating glasses.

Access to eye health services, blindness prevention, and cataract surgeries is an ongoing issue in Indonesia. To deliver these services is a challenge our Foundation has taken on and will continue to address. The International Agency for the Prevention of Blindness (IAPB) estimated that, in 2020, around 4 million Indonesians were blind. With 65%, or nearly 2.4 million, of these needlessly blind with cataracts and 11.5 million moderately to severely visually impaired, the challenge is ongoing, as the majority of these people are unable to seek specialist medical attention. JFF's unique program, which takes the services to people in their villages through mobile eye clinics, enables us to reach and assist more needy people in remote and impoverished communities.

Thank you again for your support.

Gede Bingin
