**BRING BACK  
THAT SMILE**

# GIVING GIFT OF SIGHT

## WHO WE ARE

The John Fawcett Foundation (JFF) is a humanitarian not-for-profit organisation that assists needy people in Indonesia, focusing on sight restoration and blindness prevention. JFF is registered in Australia, Indonesia, and the United Kingdom.

## WHAT WE DO

JFF offers its assistance to Indonesian citizens in the lower socio-economic group free of charge and without religious, political, or ethnic consideration. The Foundation's headquarters are in Bali, Indonesia, and its humanitarian projects include Sight Restoration and Blindness Prevention, Prosthetic Eyes and Knowledge Sharing.

## WHERE WE WORK

JFF's humanitarian projects extend throughout Indonesia, in locations where people are impoverished, and medical specialist services are scarce.

## UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS (SDGs) 2030

JFF's activities are aligned with eight of the UN's SDGs 2030

# Chairmen's Reports

## JOHN FAWCETT FOUNDATION (AUSTRALIA)

**D**ear friends  
I'm very happy to report on our achievements in 2024. Our aim was to raise funds to replace the old operating microscopes, expand our cataract and screening services and establish an electronic medical records system. I'm delighted to say that we have completed all three. This would not have been possible without your support, and I'm proud to be able to report that you have contributed the \$200,000 required for the new microscopes. We've also had a lot of fun this year with two successful fundraising events, one in August in Bali and one in December in Perth.

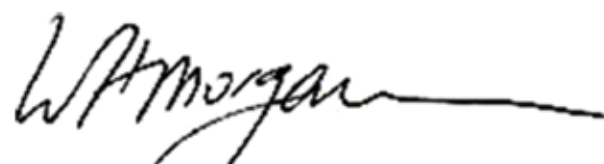

Our longstanding board member, Norbert Hoegel, facilitated purchase of two excellent German operating microscopes at reasonable prices. He has also refurbished two freestanding microscopes donated from a Victorian hospital. When these microscopes are commissioned in Bali, they will help transform the efficiency and safety of our surgical procedures. We also upgraded sterilisation and other equipment, refurbished two mobile vans and purchased new surgical instruments.

From the Lions Outback Vision, we received a donation of their electronic medical record system which they built inhouse to service remote areas in Western Australia. This has formed the perfect backbone for our own electronic medical record system. The developer, Gordon Cox, modified the system specifically for our needs at his own cost. Two young doctors who initiated JFF CREATE with our board member, Joos Meyer, implemented the electronic medical record system in Bali. Our staff are to be congratulated for taking on this significant change with great gusto and enthusiasm. Once trials are completed in Bali, we aim to expand its use offshore.

The system is fully compatible with the Indonesian Department of Health requirements and will allow us to review repeat patients to better measure outcomes as well as to perform broader-ranging screening where all data can be captured and subsequently analysed.

We acknowledge the dedication and support of our staff who have worked incredibly hard, particularly in the offshore programs, travelling to distant islands away from Bali, separated from their families for long periods of time. Currently 70% of our cataract surgeries are performed in these remote areas where the rate of blindness is high and where people who are impoverished have no access to specialist medical services.

Thank you so much for your support and assistance over the last year. I look forward to reporting back to you all next year with an update on our current and future planned programs. It is a very exciting time to be part off the John Fawcett Foundation. Please continue to support us generously as every amount and type of support is so helpful and appreciated.

  
**PROFESSOR BILL MORGAN**  
31 March 2025

## JOHN FAWCETT FOUNDATION (INDONESIA)

**I**t is with great pleasure we present the 2024 Annual Report to all our friends, donors, partners, and stakeholders.

A Balinese philosophy is belief in 'Tri Hita Karana', known as the three elements of wisdom - connections with God, harmonious relationship with the environment, and harmonious relationship among our fellow humans. This philosophy is strongly implemented in the daily life of the Balinese. The John Fawcett Foundation is aligned with this great philosophy of Balinese wisdom. Through the act of kindness, the Foundation has continued to deliver its services to people in need by giving the Gift of Sight, not only in Bali, but across the archipelago of Indonesia.

In 2024 we performed 3,635 cataract surgeries, which is 18.7% less than in 2023. A few factors caused the reduction in numbers, the main factor being the presidential and parliamentary elections in Indonesia. During the campaign months JFF had to be careful not to gather large groups of people together and had to be very selective regarding locations, avoiding the areas where campaigns were being run. Although there was a decrease in cataract operations, the prosthetic eye program was more active. Wayan Wijaya, who now has a new assistant, Dewa Astina, made and fitted 8.06% more prosthetic eyes than the previous year, a total of 134.

The Foundation is running on a very tight level of finances. The Boards, with support from the Foundation's friends, ran two successful fundraising events, in Bali and Perth. Also, JFF CREATE, established by two young Australian medical students, is showing great prospects for the future, not only raising funds for JFF but increasing the engagements and associations to the Foundation's loyal supporters and donors.

As I reported last year, the Foundation needed to renew much of its medical equipment, particularly the microscopes.

We received wonderful support from the Asian Community Fund (ACF) which donated funds for the purchase of one portable ophthalmic microscope and, through the fundraising events, we were able to purchase a second microscope. We anticipate that by mid 2025 the microscopes will be ready to be used in our field programs, and we expect that these new microscopes will be able to do the work for many years to come.

The challenge ahead is great, and the prevalence of blindness in Indonesia remains high. According to the Rapid Assessment of Avoidable Blindness (RAAB) in 2015, the data shows that East Java has the highest prevalence rate of 4.4%, with 70–80% being cataract blindness. It is still the ongoing challenge for the Foundation to eliminate cataract blindness, and we are asking all our stakeholders to work together with us in providing free cataract operations to the needy in Indonesia.

Very special thanks to Wendy Gough and the JFF (UK) Trustees who continue their solid performance in raising funds in the United Kingdom.

To all our partners, governments, donors, PERDAMI, and all the Boards (Indonesia, Australia, the United Kingdom), and JFF staff, Terima Kasih!

  
**I GEĐE BINGIN**  
31 March 2025

# International Coordinator's Report

At the beginning of 2024 Indonesian national and provincial elections were held, which necessitated a curbing of our activities for the first three months, especially offshore programs, to minimise risks to our team and patients. During this time, we focused on Bali village eye programs and on refurbishing and renewing equipment and infrastructure, as well as implementing improvements to our medical records system.

## MEDICAL EQUIPMENT

Two new portable operating microscopes were ordered from Germany, one funded with a donation from the Singapore-based Asia Community Fund. Other essential medical equipment purchases were made, including surgical instruments, instrument sterilisers, and ophthalmic equipment for use in the field.

Our laundry and sterilising facilities were refurbished and re-equipped during the year. An industrial washing machine and dryer, as well as an industrial steriliser, were installed to ensure a high level of sterility in our programs.

## INFRASTRUCTURE

Two of the older mobile eye clinics were stripped down and restored, to optimise sterility and increase reliability. The new equipment that was already available was installed, giving the mobile clinics many more years of service.

## ELECTRONIC MEDICAL RECORDS (EMR) SYSTEM

With enthusiastic input and assistance from volunteers from Australia and the Universitas Udayana, an electronic medical records system was implemented to help track, measure and report on program outcomes. This information is increasingly required by funding organisations and is a very powerful way of demonstrating our impact in Indonesia.

Equipment to support the EMR system, iPads and laptops for use in the villages, were purchased and software installed. The field staff received training to use the software and by the end of the year the new system was being trialled at Headquarters, with plans to expand to the village programs in Bali in the new year.

## RETIREMENT

After working with JFF, almost continuously, since 2001, it is time for me to retire and hand over my work to someone else. This process started late in 2024 with a reduction in hours and will be completed by the end of 2025. I do this with a real sense of reluctance, as it has been such a privilege working with the Balinese staff, admiring their skills, development

and dedication over so many years. Working closely with John Fawcett in Bali was also inspiring and I am honoured to have had this experience. Over the 25 or so years I have been involved with JFF, there have been many changes, the most significant being the growth in organisational maturity of the Indonesian foundation, and the Balinese staff, and the cooperation of medical specialists who work with JFF in Indonesia.

Contact with JFF's supporters over the years has also been a delight, and I thank all those who have given generously in so many ways – financial, voluntary effort, in-kind gifts. Reporting to donors has kept me in touch with JFF's support base and given me an invaluable insight into the generosity of people.

I retire at a time of change for JFF, and I sincerely hope that all those involved in the organisation will continue with the simplicity of John's vision which the Balinese staff always carry with them, and which has made JFF the success that it is. The staff are the constant, the backbone, of the organisation and their competence, dedication and understanding of the way things work in Indonesia is crucial to the ongoing success of the work.

PENNY LANE  
31 March 2025

**THEY ARE BLIND BECAUSE THEY ARE POOR AND  
THEY ARE POOR BECAUSE THEY ARE BLIND**

**Help us to break this cycle of poverty and blindness**

# Sight Restoration and Blindness Prevention

Blindness prevention and cataract surgery is an ongoing challenge in countries like Indonesia, a challenge our Foundation has taken on and will continue. The International Agency for the Prevention of Blindness (IAPB) estimated that, in 2020, around 3.7 million Indonesians were blind. With 65%, or nearly 2.4 million, of these needlessly blind with cataracts and 11.5 million moderately to severely visually

impaired, the challenge is a big one as most of these people are unable to seek specialist medical attention. Since this estimation, because of the pandemic, the numbers of people who cannot afford this type of treatment have increased in Indonesia.

Vision 2020 estimates that for every blind person, two people are required to care for them, resulting in three people taken out of the full-time workforce.

## JFF'S MODES OF OPERATION

JFF employs four modes of operation, working in different ways to optimise the extent of the assistance we offer:

- Bali Village Eye Programs
- Eye Screening and Cataract Operations at JFF Headquarters
- Offshore Eye Programs
- Outsourced Eye Clinics

## Bali Village Eye Programs

The team conducted 74 eye programs in villages throughout Bali, offering eye checks, glasses, and eye treatments, as well as sight-restoring operations onsite in JFF's mobile eye clinic.

**23,362 people with eye problems screened**

**431 sight restorations**

**117 sight restorations at JFF Headquarters**

## Eye Screening and Cataract Operations at JFF Headquarters

JFF conducted 32 eye checks and treatment sessions, and 28 operating sessions at its Headquarters in Sanur, Bali.

We welcome the participation of young ophthalmologists from PERDAMI Bali who assisted our team with these sessions through the year.

**1,465 people with eye problems checked**

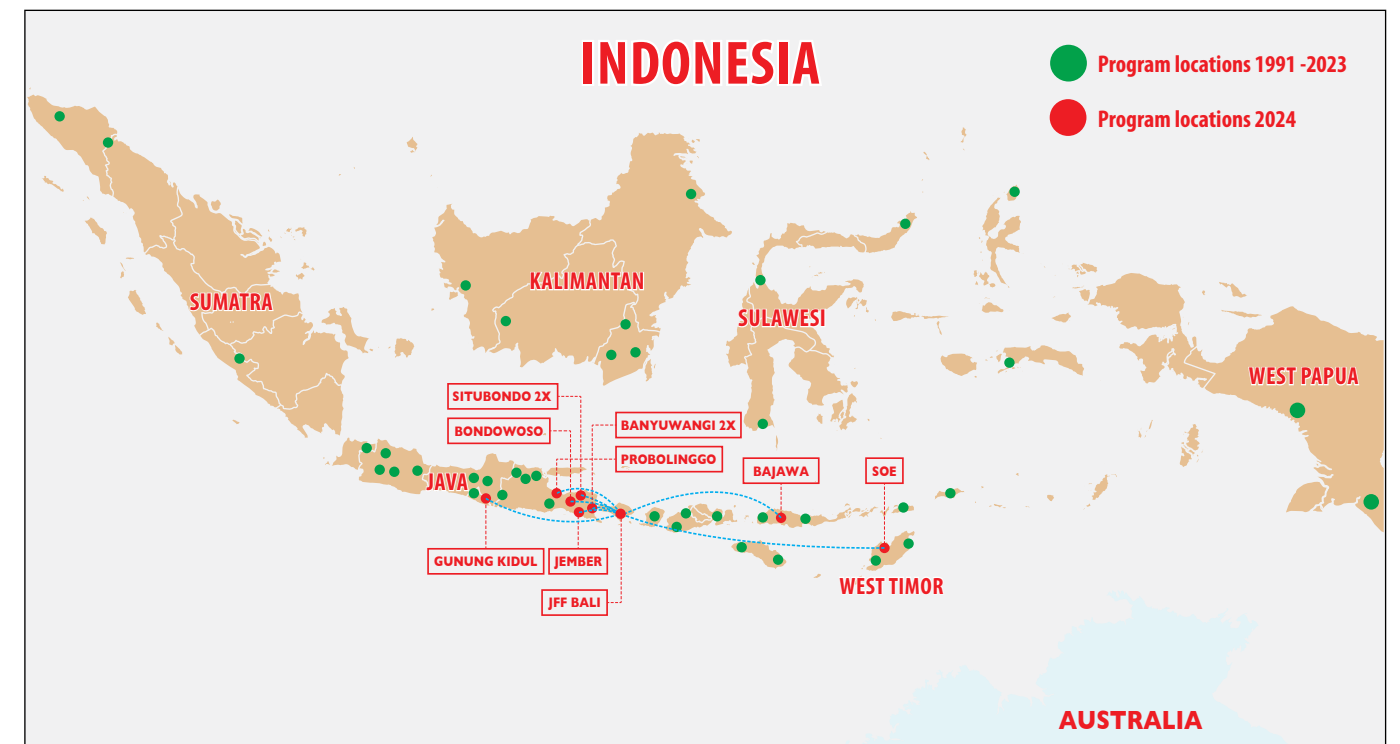

14,585 people with  
eye problems  
screened

2,211 sight  
restorations

## Offshore Eye Programs

During the year our team travelled to East Java (eight times), Yogyakarta (once) and Nusa Tenggara Timur (twice) where they conducted a total of 11 eye screening and surgical programs in cooperation with local hospitals, the Indonesian Red Cross, and the Indonesian Ophthalmologists' Association (PERDAMI).

5,289 school  
children screened  
for eye problems

## School Eye Screening

An integral part of JFF's village and offshore eye programs is to visit local schools to check the eyes of the students, aiming to detect eye problems early and treat them to prevent them worsening.

Glasses are given to those who need them, eye infections are treated, and more serious problems are referred to the local specialist or medical clinic. The team leader also takes the

opportunity to talk to the children and teachers about looking after their eyes and avoiding accidents.

## Outsourced Eye Clinics *(formerly Outreach Eye Clinics)*

The Outsourced Eye Clinic Program partners with selected Indonesian ophthalmologists who operate patients in private clinics or in government hospitals.

JFF supplies the clinics with surgical consumables, inter-ocular lenses, and an operating fee.

In 2024 JFF Indonesia partnered with Outsourced Eye Clinics in Lombok and East Java.

873 sight  
restorations at  
JFF's Outsourced  
Eye Clinics

## CHILDREN'S CATARACT SURGERIES

Two blind children, aged eight and ten years, one cataract blind in both eyes and the other in one eye, were operated in Bajawa, Flores NTT during one of our offshore eye programs by Dr Fredy from Jember, East Java.

## GENDER EQUITY: SIGHT RESTORATION

World-wide, females have higher rates of visual impairment than males but are less likely to receive treatment due to social barriers to access.

To achieve gender equity as opposed to equality in our Sight Restoration and Blindness

Prevention Project, our long-term target is to achieve a ratio of females:males operated around 60:40, which is the ratio recommended for Indonesia by the International Agency for Prevention of Blindness (October 2020). We are working towards this by proactively encouraging more

women to attend screenings and clinics and where possible holding special female-only eye clinics on occasions such as International Women's Day.

In 2024 54% of our screened patients and 51% of our operated patients were female.

## WORLD SIGHT DAY (WSD)

World Sight Day, coordinated by the International Agency for the Prevention of Blindness under the VISION 2020 Global Initiative, is held annually in October to focus global attention on blindness and vision impairment.

To celebrate World Sight Day 2024 our team worked with ophthalmologists from Perdami East Java in a three-day eye operating program in Bondowoso, East Java.

During this program 202 cataract-blind people had their sight restored.

## JFF IN NUMBERS 1991 TO 2024

EYE SURGERIES  
**74,364**

PATIENTS SCREENED  
**1,355,206**

GLASSES ISSUED  
**635,521**

EYE TREATMENTS  
**653,015**

# Prosthetic Eyes

The provision of a natural-looking artificial eye restores the confidence and dignity of the patient so that he or she can have a normal life, free from disfigurement and social stigma. Each prosthetic eye is custom-made for the patient so that they look as natural as possible and move with the other eye, so much so that it is often difficult to detect which is the artificial eye and which is the real eye.

In 2024 JFF's prosthetic eye technician made artificial eyes for 134 patients, 78% of whom received their first prosthetic eye. These were manufactured in the laboratory at JFF Headquarters in Bali and in the field during offshore eye programs.

To assist with the increasing prosthetic eye work, we appointed an assistant to our ocularist who commenced work in September.

134 artificial eyes  
made and fitted

JFF's partners from the Indonesian Ophthalmologist Association (PERDAMI) meeting with Professor Bill Morgan at JFF headquarters

# Knowledge Sharing & Volunteers

## MAINTAINING QUALITY OF SURGERY AND SERVICES

JFF's priority is to maintain the highest possible quality of treatment it can to all recipients of its assistance.

Volunteer medical specialists from Australia and the United

Kingdom travel to Bali at their own expense to pass on their skills and knowledge in cataract surgical techniques, theatre sterilisation and infection control protocols, as well as other ophthalmic specialties.

The volunteers also conduct symposiums and teaching sessions coordinated through the universities in Indonesia.

## JFF CREATE

Established in 2023, JFF CREATE (Charity, Research, Exchange, Awareness, Tutelage, Empowerment) is a new global eye health volunteering initiative designed to enhance relationships between Australian and Indonesian junior doctors.

The inaugural JFF CREATE exchange occurred in 2024; Australian co-founders Drs Elaine and Qiang raised almost A\$19,000 prior to visiting Bali where they

observed JFF's clinics and gave a presentation at the esteemed Asia-Pacific Academy of Ophthalmology Congress.

Two Indonesian junior doctors, Kevin and Pram, visited Perth in late 2024, completing the reciprocal exchange experience and benefitting from the tutelage of their international colleagues at Royal Perth Hospital and Lions Eye Institute.

Elaine and Qiang are delighted to announce additional funding from Perth Eye Foundation which will support two new Australian doctors, Murie and Martin to join the team in 2025.

Exciting developments are also expected on the project to introduce JFF's first Electronic Medical Records system.

## VISITING VOLUNTEER MEDICAL SPECIALISTS

**Professor Bill Morgan, MB BS, PhD, FRANZCO**

Lions Eye Institute, Perth, Western Australia

During his visit to APAO Bali 2024, Professor Bill Morgan convened with Indonesian ophthalmic surgeons at JFF's Headquarters. The meeting aimed to exchange expertise and highlight the importance of upholding top-tier ophthalmic services for the patients in JFF's programs.

**Qiang Li, MD(Dist), BBioMedSc, DALF C2**

Service Registrar, Lions Outback Vision  
Master of Philosophy student, UWA Centre for Ophthalmology & Visual Science

Participated in the implementation of the Electronic Medical Record (EMR) project, conducting a preliminary introduction for JFF staff to EMR for keeping JFF's patient records.

**Elaine Ong, MD, BSc**

Service Registrar, Royal Perth Hospital  
Medical Retinal Research Fellow, Lions Eye Institute  
Clinical Tutor, UWA Centre for Ophthalmology and Visual Science  
Master of Public Health student, Univ NSW

Participated in the implementation of the Electronic Medical Record (EMR) project, conducting a preliminary introduction for JFF staff to EMR for keeping JFF's patient records.

**Gordon and Yvonne Cox**

Enrich Computer Systems, Perth, Western Australia

Worked on the Electronic Medical Record (EMR) project to develop a system suitable for use by JFF.

**Fiona Berger**

Retired theatre nurse, Perth, Western Australia

Inspected and consulted on JFF's laundry facilities and sterilisation procedures.

**Dr Dini Dharmawidari, SpM(K)**

Ophthalmologist, East Java

Conducted a comprehensive session on updates in cataract surgery techniques and advancements for JFF's staff nurses at the Foundation's Headquarters.

**Dr Joos Meyer, MBBS, BMedSci(Hons), GAICD**

Perth, Western Australia

Worked on the introduction of the Electronic Medical Record (EMR) system, together with Qiang Li and Elaine Ong.

## INDONESIAN OPHTHALMOLOGISTS

## ORGANISATIONAL SUPPORT

Our sincere thanks to the organisations, foundations and businesses that supported JFF's work through the year.

**Australian Consulate-General, Bali: Direct Aid Program (DAP)**  
JFFI received a grant from the Australian Government's Direct Aid Program to support surgical and screening costs for 20 village eye programs in Bali, to be completed by June 2025.

Mr Glen Askew, Australian Consul-General in Surabaya, at the Bondowoso eye program

**Australian Consulate-General, Surabaya: Direct Aid Program**  
Our team welcomed staff from the Consulate-General in Surabaya to its offshore eye program in Bondowoso, East Java, where the balance of funds from the DAP program given in 2023 were expended.

JFF continues to receive support from Rotary Clubs in Australia, Indonesia, and other countries. Special thanks to the Rotary Club of Dalkeith, Western Australia, for its support in 2024.

The LoveHeart Group is the brainchild of Cassandra and Adam Hudson (founder of the former Reliable Education). This group organises groups of donors to join the JFF team during offshore eye programs, fully funding each program visited. The donors have the opportunity to witness firsthand the impressive outcomes of their donations and the profound impact it makes on the lives of the beneficiaries.

In 2024 LoveHeart organised donor group visits to support three offshore eye programs in East Java., during which a total of 825 blind people received sight-restoring operations.

KCK, a community group of women based in Denpasar, focuses on giving service to the needy in Indonesia with scholarships, food supplies, and health and other programs.

In 2024 KCK supported two of our offshore eye programs facilitating liaising with the local governments, and providing transport, accommodation, and food for the JFF team.

We acknowledge with sincere appreciation the continuing financial support of all the UK Charitable Trusts and Foundations that donate via JFF(UK), and express our thanks to Wendy Gough, Trustee of JFF(UK), who has carried on the work of her late husband, Jeremy Hope, raising significant funds for JFF's work.

JFF receives support through B1G1's Membership Program which inspires a wide range of businesses world-wide to donate part of their profits to charities and projects of their choice.

Representatives from B1G1 visiting a village eye program in Bali

Popular restaurant and homestay in Bali, Poppies Asia, has been regularly donating to JFF for many years, with donations from guests and management.

# Fundraising

JFF's humanitarian work is dependent on donations and grants. In 2024 JFF's funding came from philanthropic

foundations and organisations, governments, individual and corporate donors, and bequests. We are greatly indebted to all

these sources of income which enable us to continue our assistance to the underprivileged in Indonesia.

## FUNDRAISING EVENTS

JFF held two major fundraising events in 2024 which raised much needed funds and helped to raise awareness of JFF's work in the wider community.

**A Gala Dinner at Tandjung Sari Hotel in Sanur, Bali in August.**

Our thanks to Avi Purnomo, general manager of Tandjung Sari Hotel, for providing this wonderful venue, and Yoke Darmawan, whose wide network and enthusiastic organising made the event such a success. The night featured a special dinner, lively auction, and classical Balinese dance performances. Our thanks also to those organisations and the artists who generously donated items for the auction.

**'A Night For Sight' in Perth, Western Australia in December.**

This inspiring evening of compassion and action was held at the premises of the University of Western Australia Hockey Club to raise funds for an operating microscope to be fitted into one of the JFF mobile eye clinics travelling Bali and nearby islands.

The event featured fine wine, delicious canapes, wonderful prizes in a silent auction, and entertainment by Balinese dancers,

with the opportunity for the guests to discover what JFF does, how they do it and why supporters matter.

### Other Fundraising Initiatives

Many of our supporters hold fundraising activities for JFF, and we are very appreciative and grateful for this enthusiastic support.

Supporters are always welcome to visit our programs to see first-hand the impact of their donations.

# Partners

## FORMAL AGREEMENTS

JFF Indonesia has formal Agreements and MOUs with branches of PERDAMI (Indonesian Ophthalmologists' Association),

government, health departments and hospitals in the locations where JFF's programs are held, and with ONE SIGHT EssilorLuxottica

Foundation which donates glasses lenses and frames for JFF's programs.

## CONTRIBUTING PARTNERS

**I Nyoman Wardhana (JFF), Ipuk Fiestiandani (Bupati, Banyuwangi), Amir Hidayat (Head, Health Department Banyuwangi), Nurhadi (PMI Banyuwangi) at JFF's eye program in Banyuwangi, East Java**

Other corrective surgeries	0	60

# Financial Summary

The Financial Report represents the consolidated summary financial statements for The John Fawcett Foundation and Yayasan John Fawcett Foundation Indonesia. Donations and expenditure have been converted to Australian dollars.

**AUDITS**  
We would like to express our thanks to Ken Thomas, Paragon Consulting and Roger Shaw (Independent Examiner, UK) who undertook the audits on a pro bono basis for the Australian and UK foundations respectively.

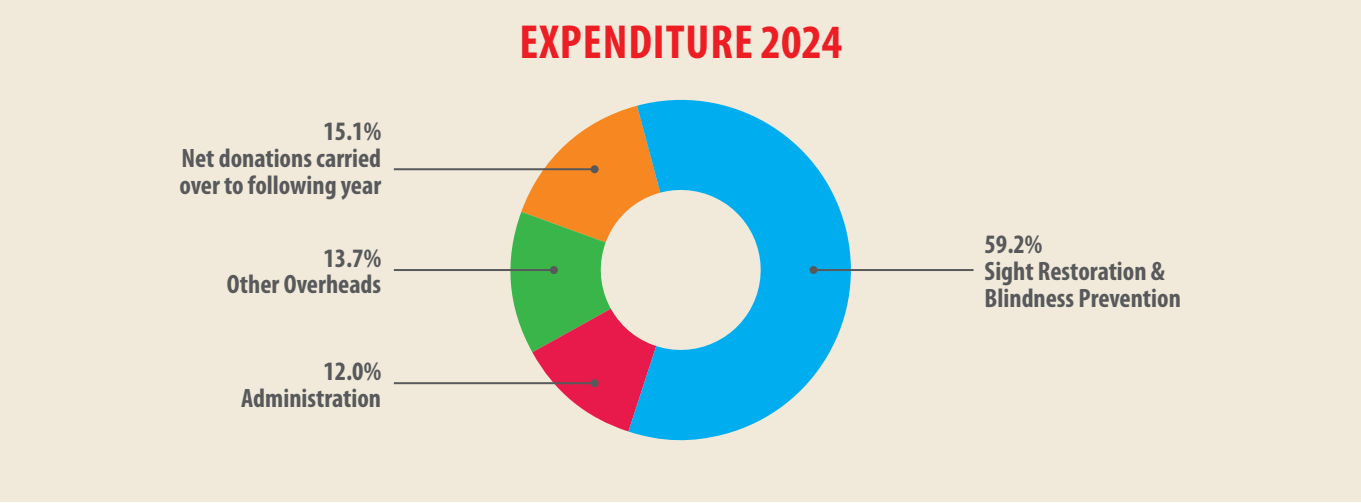

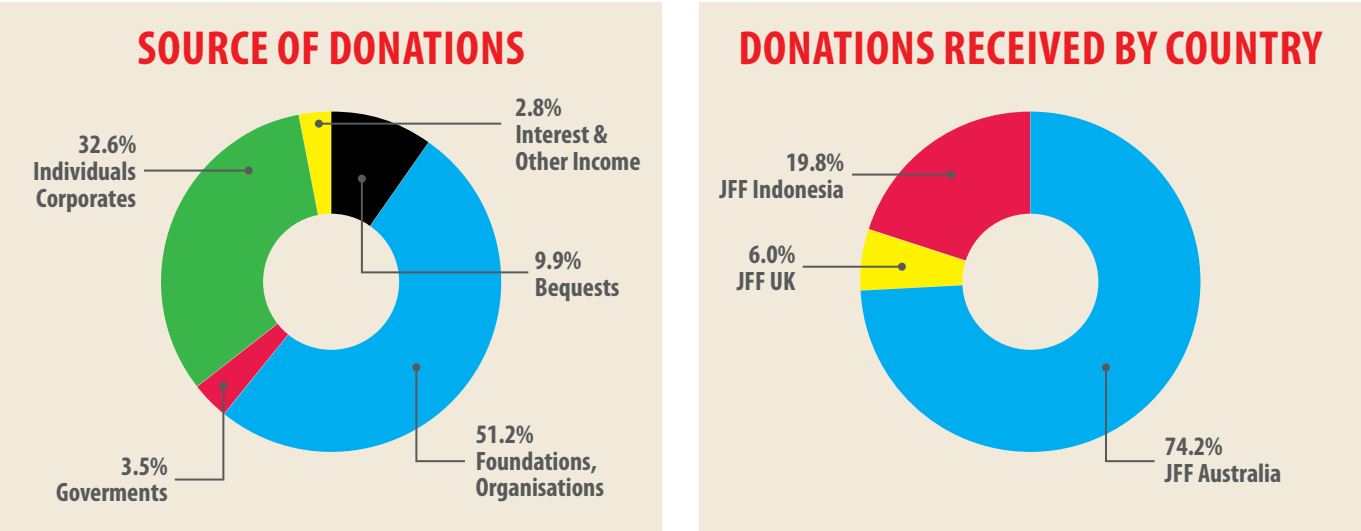

This is of great value both in monetary terms and in terms of establishing our Foundation's financial credibility. We also thank Sri Marmo Djogosarkoro (SMD), who audited the Yayasan John Fawcett Indonesia's accounts.

## BALANCE SHEET 2024

	Current year surplus/(shortfall)	157,615
TOTAL EQUITY		1,746,455

## OPTIMISING DONATIONS

The contribution of medical and technical specialists who volunteer their time and skills to train local personnel, in addition to donations in kind, means that donated funds can be more effectively directed towards our projects and the people we assist.

NET DONATIONS OVER FOR 2024		157,615	15.1%

# JFF Boards

AS OF 31 DECEMBER 2024

## JFF Australia (JFFA)

Although the original projects commenced in 1989, The John Fawcett Foundation Incorporated was formally established and registered in 2000 to support the humanitarian projects conducted by the Yayasan John Fawcett Indonesia (JFFI).

The Australian Board has a governing and fundraising role, and the Foundation is registered with the Australian Charities and Not-for-profits Commission (ACNC) to receive tax-deductible donations in Australia.

JFFA's Annual General Meeting was held in April 2024 in Perth, Western Australia, and Board meetings were held quarterly. The third quarterly meeting for 2024 was held in Bali, with JFFA Board members holding discussions with the Balinese staff and JFFI Board members, and joining the team in a village eye program.

# JFF Indonesia (JFFI)

The Indonesian Foundation was registered as Yayasan Kemanusiaan Indonesia in 2000. In 2014 the name was changed to Yayasan

John Fawcett Indonesia. The JFFI Board comprises two Trustees, an external Supervisor, and a Management Board. All programs

are run in Indonesia under the management of JFFI. Funds for JFF's work are also raised in Indonesia.

# JFF UNITED KINGDOM (JFF(UK))

The United Kingdom branch of JFF was established in 2006, initiated by the late Jeremy Hope to raise funds for JFF's work in Indonesia.

Trustees Wendy Gough, James Mason, and Jamie Hope have continued Jeremy's work raising funds through donations from

Charitable Trusts in the UK and are responsible for the running of JFF(UK).

**Make a donation and  
you'll soon forget  
about it.**

**But they'll remember it  
for the rest of  
their lives.**

**John's legacy will live on through those  
who leave an unconditional gift in their will**

## MAKE A BEQUEST

Over the years you have become a part of the tradition of the JFF, and we have relied on your support to continue our humanitarian work.

More people than ever before are supporting their favourite charity

through a bequest. A bequest is a long-lasting way to invest in the future. It will contribute to the long-term security and operation of the JFF and has no impact on your current circumstances.

Now could be the time to consider a meaningful way to continue the journey with us into the future.

You can support The John Fawcett Foundation in this way and in so doing become a JFF VISIONARY.

If you wish to discuss this, please seek out a JFF Board member at [jff@johnfawcett.org](mailto:jff@johnfawcett.org).

*You should seek legal advice when setting up a bequest.*

## HEADQUARTERS

Jalan Pengembak 16, Blanjong  
Sanur, Bali 80227 Indonesia

A photograph of two elderly women sitting in a green rickshaw on a paved street. The woman on the left wears a floral patterned top and a red batik sarong, holding a pink bag. The woman on the right wears a blue patterned top and a yellow batik sarong. Both have white bandages covering their eyes. A driver is visible behind the rickshaw. The background shows other people and vehicles, slightly out of focus.

**THANK YOU FOR  
YOUR SUPPORT**
